

September 25, 2017

Dear Senators:

We, the more than 3,000 undersigned faith leaders representing Jewish, Christian, Muslim, Sikh, and Buddhist traditions, believe that healthcare is an essential human right. We believe that individuals and families should not have to worry about the future of their healthcare coverage and whether or not it will be ripped away.

It was a tremendous relief that Congress was working in an open, bipartisan way to improve our healthcare system. But now, we are outraged that Congress would abandon these efforts for another partisan attempt that would take healthcare away from millions of our people. **For the sake of our people, please oppose the Graham-Cassidy proposal and support the reauthorization of the vital Children's Health Insurance Program (CHIP) and Disproportionate Share Hospitals (DSH) program.**

The Graham-Cassidy proposal would cause millions to lose health coverage, and people experiencing vulnerability, sickness, and poverty would be hit the hardest. Over the next decade, ACA funding would be eliminated, Medicaid would be gutted, and critical protections, such as for people with preexisting conditions, could be eliminated in certain states. Graham-Cassidy would end Medicaid as we know it by instituting a per capita cap and shifting billions of dollars onto states. The result would be nothing short of reducing access to quality healthcare, raising premiums, and eliminating protections for millions of Americans. In 2027 alone, Graham-Cassidy would cut federal health care spending by \$299 billion. More than 37 million children would be affected by cuts to Medicaid.

Graham-Cassidy not only threatens the health coverage of millions of children through cuts to Medicaid, but it also delays bipartisan congressional action to extend funding for programs like the Children's Health Insurance Program (CHIP). Since its creation in 1997, the uninsured rate of low- and middle-class children has decreased from 14% to just 5%. Without reauthorization, CHIP funding will expire at the end of September, and the nearly 9 million children on CHIP might begin to receive termination notices.

We also urge you to protect funding for DSH, which supports safety-net hospitals that provide health services to people without insurance. Without this funding, many hospitals will face difficult decisions to cut services or close entirely. In rural areas especially, lower-income Americans will face a crisis. The \$43 billion in proposed funding cuts over the next eight years will cause job loss, a decrease in the quality and number of services hospitals provide, and create life-threatening gaps in healthcare service for many Americans.

To allow Graham-Cassidy to pass the Senate – and to allow the CHIP and DSH programs to lapse – is to allow the health of America's most vulnerable people to face unnecessary and immoral obstacles. Jobs will be lost, local economies will be harmed, and access to healthcare will become a challenge for many. Therefore, we deplore this proposed legislation and these potential funding cuts and pray that you will work with your colleagues in Congress to prevent any disruption of healthcare for Americans.

As faith leaders, it is our duty to care for and minister to people in our communities. As Senators, you have a similar duty to care for your constituents. Please focus on bipartisanship rather than political posturing, oppose Graham-Cassidy, and extend CHIP and DSH funding.

Sincerely,

National Faith Leaders

Once again, a group of white, male Senators have crafted a plan that is out of touch with the realities of millions of ordinary families and fails the moral tests of our faith. The Graham-Cassidy-Heller-Johnson proposal is immoral policy that would hurt millions of people, and their plan to rush it through without knowing the impact is reckless. This new repeal bill goes far beyond the BCRA by eliminating all ACA premium and copay supports, gutting Medicaid, and removing protections for people with pre-existing conditions. These policies target people struggling to get by, the sick, and the elderly—the very people Jesus teaches us to put first. Catholic sisters stand with our nation’s most vulnerable people and we must stand against this anti-health, anti-life legislation.

Bishop William Barber II

Repairers of the Breach, Goldsboro, NC
This bill is racist and takes health care from millions of African Americans being peddled with a states rights agenda. It is a form of economic injustice that will hurt the poor who are mostly white. Bad for America.

Pax Christi USA strongly believes that healthcare is a human right which every human being is entitled to. The Graham-Cassidy healthcare repeal bill is in violation of that human right. It threatens millions of people, children, elderly, those with pre-existing conditions and those made poor by our unjust economic system. We add our national voice to repeal this unjust piece of legislation.

Colin Christopher

Islamic Society of North America, Washington, DC
We have a moral obligation in this country to care for those who are young, elderly, sick, or unable to fend for themselves. If we can build the mightiest defense system the

world has ever known, we also have the ability to fund the best preventative health care system. The Graham-Cassidy bill would decimate patient protections, decrease care, and directly lead to thousands of preventable lives lost that are currently being saved by the affordability and coverage of the ACA.

The Cassidy-Graham health care proposal violates the very values that lie at the core of Quaker morals. This bill would threaten the health and dignity of millions of Americans, especially low-income children, seniors, and people with disabilities. Cassidy-Graham includes extreme cuts to Medicaid, undermines critical protections for individuals with pre-existing conditions, shifts billions of dollars onto states, and will cause tens of millions of Americans to lose health coverage. Moreover, advancing this legislation will destroy the productive and bipartisan work currently taking place. Rather than trying to force through yet another rushed, ultra-partisan, dysfunctional health care proposal that causes millions of Americans to lose health coverage, Congress should refocus back on the bipartisan negotiations so desperately needed to stabilize the insurance markets and lower health care costs.

Jim Winkler

National Council of Churches,

Graham-Cassidy is bad legislation that will bring harm to millions of Americans. Faith leaders must name this reality and call on our elected leaders to do no harm and vote against this bill.

Dr. Noel Castellanos

CCDA, Chicago, IL
As people of faith we lift our voices to declare to our lawmakers that eliminating healthcare for millions of vulnerable Americans is shameful and immoral. To do so is putting politics over the needs of people and cannot be justified. Fix ACA so more Americans can get coverage, don't obliterate it at the expense of the poor.

The Sisters of Mercy, who have been providing healthcare services for people who are poor and vulnerable for nearly 175 years in the U.S., believe that access to health care and adequate health insurance coverage is a fundamental human right. Rather than taking away health care for millions of Americans over the next several years, we should be finding ways to strengthen and expand health coverage and improve affordability.

Sr. Joan Marie Steadman CSC

Leadership Conference of Women
Religious, Silver Spring, MD
As women of faith, we take seriously the gospel call to care for those in need. Catholic sisters are committed to a faith-filled vision of

healthcare that guarantees dignity and the right to quality care to all. We urge Senators to reject Graham-Cassidy and seek a bipartisan solution.

Rabbi Jill Jacobs

T'ruah: The Rabbinic Call for
Human Rights, New York, NY
Our insistence on the moral duty of the government to ensure health care for all comes from our grounding both in human rights, and in Jewish teachings. Rabbi Eliezer Waldenberg, one of the most important twentieth-century legal authorities, notes, "When poor people are ill and cannot afford medical expenses, the community sends a doctor to visit them, and the medicine is paid for by the communal fund." (Tzitz Eliezer 5:4) And Rabbi Shlomo Goren, former Ashkenazi Chief Rabbi of Israel declares, "the government may not excuse itself from responsibility toward the sick since the government is responsible for the health of the people." (Assia journal 21:40) The Universal Declaration of Human Rights requires that all countries provide "standard of living adequate for the health and well-being of himself and of his family, including ... medical care."
