### “Economy for All” Social Media Toolkit

Welcome to the Economy for All Social Media Toolkit! This resource will help you engage in our 2025 nonpartisan voter education and advocacy work. Whether you're a seasoned advocate or new to social media advocacy, these tools will help educate and inspire your online networks.

#### Introduction to the Economy for All Agenda

Whether we are nurses or farm workers, welders or coders, students or retirees, we are resilient, and we take care of each other. When money is tight, we find a way to get by. But we deserve more. We are made in God’s image, and we deserve to thrive, not just survive.

But time and time again, some greedy politicians side with the ultra-wealthy, letting them influence our politics, pollute our neighborhoods, and get rich off our hard work — allowing CEOs to make 290 times more than the average workers’ pay. To distract us from the problems the powerful few create, they blame low-wage workers, hardworking immigrant families, and our transgender neighbors. Instead of making the ultra-wealthy pay what they owe in taxes, these lawmakers seek to cut our health care and take food off our tables. This is immoral.

But it doesn't have to be this way. For decades, Catholic Sisters and faith-filled justice-seekers have chosen solidarity with workers and love of neighbor. When we live out these values together, we win—like when we secured worker protections in the Civil Rights Era, monthly checks and other relief during COVID with the American Rescue Plan Act, and health care to millions of people with the Affordable Care Act.

#### An Economy for All

Today, we carry this Spirit forward with all who care about the common good. We recognize that our economy touches on all aspects of our lives and demand federal policies that reflect our dignity and deliver what we need: an economy for all.

- **Jobs with paid leave and wages that cover our bills, retirement, and more**
- **Affordable housing, food, and healthcare**
- **Safe and welcoming neighborhoods**
- **Clean air and water**
- **A tax code that ensures the wealthy pay their fair share**
- **A just and humane immigration system**
- **A politics responsive to the people, not the money**

## **An Economy for All Social Media Toolkit**

As Pope Francis says, “Today we also have to say ‘thou shalt not’ to an economy of exclusion.” We demand that our elected leaders make policy choices to create an Economy for All.
